

Considerate Constructors Scheme

The scheme has influenced the way we design our strategy of work, accounting for our successful CCS scores on site. Willmott Dixon sites are registered with the CCS and we work towards the higher code of conduct, we are committed to the highest standards of work.

PROJECT INSIGHT Whitby Maritime Training Hub

The new Whitby Maritime Training Hub will provide training and certification facilities for the maritime, marine and offshore renewable industries.

The Hub will also provide accommodation for maritime businesses and service providers to support economy growth and resilience within the local community.

Willmott Dixon – who are we?

Willmott Dixon is a privately-owned contracting and interior fit-out group founded in 1852. We are one of only a few companies to be recognised three times by the Queen's Awards for Enterprise, in the sustainability and promoting opportunity categories. In 2023, this continued with a King's Award for Enterprise for promoting opportunity, followed by a King's Award in 2024 for sustainable development. Our goal is to become a net zero carbon company by 2030, with all buildings delivered after this date also being net zero.

Social Value

Happy days centre – Shetland House care home

We volunteered at the happy days centre, at ST. Hilda's business centre. We went along and spent some time with the lovely ladies doing some arts and crafts. We helped them make some lovely pictures of trees, using dried flowers and other mediums and enjoyed talking about their families and keeping them company. A lovely time was had by all. Jakki, the manager said: 'This is such an exciting time for us to have the opportunity to have volunteers to help our team make life more enjoyable and interesting for our residents!'

Social Value

A number of local residents and charities have come along to visit the site so far. There is one that stands out which is a group of ladies who run a charity that helps to take pressure off young carers by providing activities to their clients. They were impressed by the amount of space that will exist within the building, but they were also interested in the opportunities of workshops and how we could help. They were also interested in how the building could be part of the community.

Latest progress

We are currently in the process of completing the steelwork installation with the external scaffolding around the perimeter of the building progressing. Temporary electrical installations are also ongoing.

The top two floors are nearing completion and you will soon see the bricklayers starting the footing setting out for the external walls.

Marc, who was previously unemployed, has recently secured a position with Willmott Dixon as a gate operative.

Thanks to his positive attitude, professionalism, and friendly nature, he has already been awarded a Green Card in recognition of going above and beyond in his role.

In addition to his work on site, Marc has also been actively supporting our social value efforts. He has been volunteering alongside Kat, our Social Value Lead, at the local food bank—bringing energy, compassion, and a smile to those in need.
